

FIGURATIVE SCULPTURE COMMISSION

Blue Tangerine Art Advisors is currently sourcing artists who can fulfill on the following commission to create a figurative sculpture in a transparent medium according to the specifications below.

We wish to interview artists that can fulfill on the commission in its entirety, or in two steps. For example, we are open to working with artists who can create a mould, which can then be fabricated in the appropriate material offsite.

Please complete the request for interview on page 2 to register your interest.

Specifications

- Style: figurative model of a healthy, fit male. Style is representational.
- Mood: healthy, fit male with futuristic mood.
- Pose / Gesture: Full figure standing firm or taking a step forward. Artist sketches requested for approval of stance and gesture.
- Medium: transparent material, solid, durable, medium weight (e.g. cast acrylic, resin, glass).
- Size: up to 18 inches tall (inc. plinth).
- A maquette (scale model) to be delivered and client approved before production commences.
- Quantity: ability to create an edition of up to 60 sculptures. It is anticipated that a mould or cast allows for multiple sculptures to be produced, either all at once or on demand, over 12-18 months.

Other requirements:

- Mathematical equations, preferably in white, must be visible within or on the sculpture. Ideally these are trapped within the medium and visible from the outside, but could also circle or cover the surface. Preferred but not required: equations are moving or animated.
- Presentation Plinth: small durable plinth or stand may be required (with option to engrave plinth or allow for inscription plaque to be attached)
- Lighting: ideally, each model is lit from below or within (preferred but not required, budget depending).

Artist Selection:

- Artist experience: demonstrable track history of working in desired medium; provide prior examples of similar sculptures; and has the ability to communicate process, issues and risks (if any) inherent in process and production schedule. References required.
- Exclusivity: while the artist retains copyright, it is anticipated that any drawings, mould and sculpture edition will be reserved exclusively for client use.

Budget:

- Budget proposals are sought from the artist
- Budget may be broken down to concept development (sketches); maquette development; production (per unit cost as appropriate).

Request for Interview

Please complete the form below to register your interest in being considered for this commission. We will be interviewing suitable artists in March. We are open to creative solutions to approaching this project.

We are accepting requests for interviews through March 1, 2010.
